Respect the elders

- Ayush Das

Indian culture has traditionally continued a joint family where we respect all our elders. But now a days we don't respect the elders. But they treat us well and tell stories, they give us infinite love but we don't care about them. For that from now we should start ~~o~~ respecting them and take care ~~about~~ of them and obey their words. I request you all to obey them.

“Respecting elders is respecting God”
